Training Developers Course (TDC)

The TDC is the core training activity of the ICAO TRAINAIR PLUS Programme (TPP). It provides the core skills to consolidate the implementation of the Programme among civil aviation training centres (CATCs), through the creation of well-trained professional teams of course developers.

The course will train civil aviation course developers to design and develop Standardized Training Packages (STPs) according to the TRAINAIR PLUS competency-based training methodology, by either upgrading existing conventional courses, or creating a new STP.

► LEARNING OBJECTIVES

Upon completion of the course, participants will be able to accomplish the following:

- apply the TPP competency-based methodology for the design and development of high quality STPs and other training courses;
- promote the development of competency-based courses that meet the national, regional or global civil aviation training needs; and
- Co-operate with subject matter experts to implement the most current technical content.

► TARGET POPULATION

- Experienced civil aviation course developers, instructors, and aviation professionals who are dedicated to the development and implementation of competency-based training programmes, that comply with ICAO's training methodology standards.
- Training managers, supervisors and professionals who wish to acquire course development skills in order to further support their training organization.

► STRUCTURE OF THE COURSE

Duration: 10 days

Delivery mode: Classroom

Language of instruction: English, French, Spanish, Russian and Chinese
