Ghana Civil Aviation Training Academy (GATA)

“Committed to Aviation Excellence”

The Ghana Civil Aviation Training Academy (GATA) was established in 2008 under the Ghana Civil Aviation Sector Upgrade Project (GCASUP) and structured as a department of the Ghana Civil Aviation Authority (GCAA).

GATA however came into full operation in 2009, and has obtained a Trainair Plus Associate Membership, and also has become a centre of excellence for aviation training.

Currently, the Academy organises courses in Air Traffic Control, Aviation Safety and Security, Aviation English Proficiency, Aviation Management and General Management Courses.

GATA has generated enormous interest among countries in the sub-region, having held training sessions for aviation professionals from Benin, Togo, Liberia, Sierra Leone, Nigeria, The Gambia, Sao Tome, Roberts FIR and EAMAC.

The recent commissioning of an ultra-modern seven-storey complex has put GATA in pole position to cater for an even larger number of students, while expanding its course base to include Airport Emergency Service, Aircraft Maintenance, Cabin Crew, Piloting Courses, CNS Courses, Flight Operations and Flight Dispatch.

The complex has world-class lecture rooms, offices and air traffic control simulation centres. Other facilities include a modern library, computer and Language centres, a 200 seater capacity state-of-the-art conference centre and a cafeteria.

GATA works in partnership with the United States Federal Aviation Administration (FAA), International Air Transport Association (IATA), Ethiopia Aviation Training Academy (EATA), Egyptian Aviation Training Academy (EATA), ATNS Aviation Training Academy and EAMAC.

It is also collaborating with the Singapore Civil Aviation Training Academy, and the East African School of Aviation (EASA).

GATA collaborates with Egyptair Training Academy, Egyptian Aviation Academy and Ethiopian Airlines Training Academy to run the following courses: (Continued)
