

Remotely Piloted Aircraft Systems

Scope of Oversight Responsibility

A. OPERATIONS

1. Rules of the Air
2. Collision Avoidance
3. Air Traffic Services
4. Equipment
5. ATS/remote pilot communications
6. Aerodromes
7. Meteorological service
8. Security
9. Safe transport of dangerous goods by air
10. Aircraft accident and incident investigation
11. Search and rescue
12. Facilitation

B. AIRCRAFT AND SYSTEMS

1. Aircraft Certification
2. Airworthiness
3. Remote pilot station(s)
4. Nationality and registration marks
5. Radio navigation aids and airborne navigation equipment
6. Surveillance systems
7. Aeronautical communications
8. Aeronautical radio frequency spectrum
9. Aeronautical charts
10. Environmental protection

C. PERSONNEL

1. Personnel Licensing
2. Licensing and training for pilots and other members of the remote crew
3. Licensing and training for air traffic controllers
